

# ASTROGEOGRAPHY

FINDING THE PLACES THAT OPEN DOORS FOR YOU.

# FIND YOUR TOP LOCATIONS GLOBALLY

# KNOW YOUR MISALIGNED LOCATIONS

In Astrogeography, not every place supports your energy in the same way. Aligned locations are regions where your planetary lines work in harmony with your birth chart. These places tend to feel astrologically supportive, aligned and growth-oriented. Life often flows with greater ease here: whether in career, relationships, emotional wellbeing, or personal purpose. Misaligned locations activate more challenging planetary themes. While not inherently “bad,” these places may feel heavy, unstable, isolating, or demanding. They often bring lessons, pressure, or delays that require greater effort and awareness to navigate.

# **"YOUR BIRTH CHART CANNOT CHANGE BUT THE PLACE YOU LIVE CAN."**

**This report by Advanced Astrogeographer Lakshita Raya Ankem pinpoints the locations that naturally support your career, relationships, and emotional stability, as well as places that awaken confidence, wealthflow or healing. It also identifies regions that may bring pressure, delays, or karmic lessons, allowing you to approach them with clarity rather than uncertainty. Clearly structured tables present aligned and misaligned locations at a glance, making this complex and highly calculated analysis a precise, practical guide for relocation, travel, and long-term life planning, tailored exclusively to your birth chart.**

## CHOOSE BETWEEN BASIC OR COMPLETE

You may choose between a Basic or Complete Astrocartography analysis offering at Lastrological. The Basic option focuses on one specific country or city, ideal if you are considering relocation, work, or travel to a particular place.

The Complete analysis provides a full global map overview, identifying all supportive and challenging locations worldwide, including both benefic and malefic zones, offering a comprehensive understanding of how different regions influence your life. This allows you to decide with clarity whether you need focused insight or a complete locational roadmap aligned with your birth chart. Both options are personalized and professionally interpreted.

# **YOU CAN BENEFIT FROM A LOCATION EVEN WITHOUT RELOCATING**

**Astrogeography is not limited to permanent relocation. You can benefit from a location's planetary influence even if you do not plan to live there long-term.**

**Certain places support specific themes in your life and can be activated through short stays, frequent travel, professional engagement, or strategic visits. A location does not need to become your home to positively influence your experiences, opportunities, or mindset.**

**Depending on your goals, a location may be beneficial for:**

- **Short-term travel or retreats**
- **Business expansion or investments**
- **Career exposure, networking, or visibility**
- **Creative work or inspiration phases**
- **Healing, rest, or emotional reset**
- **Relationship exploration or social ease**

# **BEYOND TRADITIONAL VEDIC ASTROLOGY**

**Astrocartography is an advanced Western astrological discipline founded by Jim Lewis, and cannot be interpreted by Vedic astrologers or methods alone. This report is based on deep Western chart mechanics and locational decoding, requiring specialized training beyond conventional astrology, ensuring a level of precision and insight unavailable through standard interpretations.**

## **TECHNICAL FOUNDATION**

- **Based mainly on Western tropical astrology**
- **Requires accurate birth time**
- **Calculations use geocentric planetary positions**
- **Interpretation is locational, angular, and natal-condition dependent**
- **Vedic Analysis is also combined where necessary.**
